1
MONTHLY ASSESSMENT - I (Observation, Empathy and Define Phase)  
(DATE : ___/___/___)

1. Why students/team have taken above mentioned domain? (Please specify the reason)  
(Note: For more content or information, one may attach additional pages to this card.)

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

2. How frequently student team has gone for observation on field, mention with date, place, time etc.? Which are the key observations that they have noticed?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

3. A. How many interactions/interviews team members have done?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

B. Who are the user and various stakeholders on domain? Describe their persona (Name, age, occupation/education, roles and responsibility etc.)

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

C. List out the questions asked by team while having observation and interview?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
4. What is something special/random/unusual (i.e. activity, environment, interaction, object or user) team have observed at the domain? Please elaborate the conditions with photographs if available.

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

5. Enlist any five major problems observed by your team in the respective domain. Mention any one for which you have empathize user the most and which might become your problem statement. Give reasons of selection of particular problem/issue based on empathy.

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

6. Define your “PROBLEM DEFINITION” for the project as per below format. Which might be refine till end of Ideation phase if you wish.

**GUIDE SIGNATURE:**

Date:
MONTHLY ASSESSMENT – II (Ideation and Product Development Phase) (DATE : ___/___/___)

1. Explain briefly Ideation thought process and efforts of your team to reach ideas for listed problems.
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

2. Enlist any five effective ideas to address the probable listed problems with reason.
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

3. Explain the most effective possible solution proposed for the problem.
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

4. Explain the features, functions and working principles/technology/pattern of your proposed solution.
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
5. Enlist major advantages and disadvantages (atleast three) of the proposed solution.
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

6. Briefly mention refinement on PDC based on User/Stakeholder’s feedback on your concept.
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

SUGESTIONS BY GUIDE:

IDEATION CANVAS SUGGESTIONS:

PRODUCT DEVELOPMENT CANVAS SUGGESTIONS:

LEARNING NEEDS MATRIX SUGGESTIONS (in case of 4th sem and onwards):

GENERAL SUGGESTIONS:

Overall Mark, considering assessment I (Out of 05):

GUIDE SIGNATURE:
Date:
MONTHLY ASSESSMENT - III (Detail Design, Prototype and Test phase)
(This assessment shall be done by another guide of department or interdepartmentally along with guide)  (DATE :___/___/___)

1. Which theoretical subjects/concepts are involved with your project? How it is useful to your project?
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

2. Which software/design tool/Skills you have learned/applied during the project? Explain the features of it.
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________

3. Explain the prototype/model prepared by the student/team.
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
   __________________________________________________________________________
4. What are the materials, technology, things have utilized to make the prototype/model?
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

5. How many Iterations have you done to reach final solution? Explain modification/revise parameters/characteristics for each iteration.
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

6. What is the scope of the project? How you are planning to implement it in future?
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
